INTRODUCTION

This bibliography was prepared as part of the Science Assessment for Isle Royale National Park and Biosphere Reserve. The original bibliographic search was conducted by Robert M. Linn, Adjunct Professor, Michigan Technological University. Craig Axtell, Resource Management Specialist for Isle Royale National Park, coordinated the updating of the bibliography with the most recent inputs being provided primarily by researchers at Michigan Technological University. The computer-based bibliographic file is maintained at Isle Royale National Park and the Midwest Regional Office of the National Park Service.

For a detailed description and synthesis of the history of scientific studies and the current available information base at Isle Royale National Park, the reader should refer to the following publication: Isle Royale Biosphere Reserve: History of Scientific Studies. U. S. MAB Report No. 11, Volume I.
