

PUBLICATIONS ON MONTEZUMA WELL, ARIZONA
(Compiled by Dean W. Blinn, Department of Biological Sciences,
Northern Arizona University, Flagstaff, AZ)
January 1990

- Anonymous. 1948. They found bottom..... Desert 11:31.
- Barnett, A. & A. Brazel. 1975. A topoclimatic survey of Montezuma Well, Arizona. Arizona Academy of Sciences. 10:40-41.
- Batchelder, G.L. 1972. Progress report on limnological investigations at Montezuma's Well. 6 pp.
- Batchelder, G.L. 1974. Postpluvial ecology in Montezuma Well, Yavapai, Co., Arizona. Final Report to the Arizona Archeological Center., National Park Service, USDI, 19 pp.
- Batchelder, G.L. & G.A. Cole. 1978. Evidence for post-pluvial water level fluctuation at Montezuma Well, Coconino County, Arizona USA. Unpubl. manuscript. 5 pp.
- Beckman, J.E. Miscellaneous historical notes on Montezuma Well. Unpubl. document.
- Blinn, D.W. & R.W. Davies. 1989. The evolutionary importance of mechanoreception in three erpobdellid leech species. Oecologia 79:6-9.
- Blinn, D.W. & R.W. Davies. 1989. New distributional records for leeches (Hirudinoidea) in Arizona. Southwestern Naturalist 34:431-432.
- Blinn, D.W., Davies, R.W. & B. Dehdashti. 1987. Specialized pelagic feeding by Erpobdella montezuma (Hirundinea). Holarctic Ecology 10:235-240.
- Blinn, D.W. & B. Dehdashti. 1984. The nocturnal feeding behavior of Erpobdella punctata (Hirudinoidea) in a near thermally constant environment. 47th Annual Meeting of American Society of Limnology & Oceanography., Vancouver, B.C. Abstr. p. 9.
- Blinn, D.W., Dehdashti, B., Runck, C. & R.W. Davies. 1989. The importance of prey size and density in an endemic predator-prey couple (leech Erpobdella montezuma - amphipod Hyaella montezuma). Journal of Animal Ecology 59:187-192.
- Blinn, D.W., Grossnickle, N. & B. Dehdashti. 1988. Diel vertical migration of a pelagic amphipod in the absence of fish predation. Hydrobiologia 160:165-171.
- Blinn, D.W. & D.B. Johnson. 1982. Filter-feeding of Hyaella montezuma, an unusual behavior for a freshwater amphipod. Freshwat. Invert. Biol. 1:48-52.

- Blinn, D.W., Pinney, C. & V.T. Wagner. 1987. Intraspecific discrimination of amphipod prey by a freshwater leech through mechanoreception. *Can. J. Zoology* 66:427-430.
- Blinn, D.W. & C. Runck. 1989. Seasonal egg densities and substratum requirements for oviposition and conditions for egg eclosion in Ranatra montezuma Polhemus (Heteroptera: Nepidae). *Annals of the Entomological Society of America* 82:707-711.
- Blinn, D.W. & M. Sanderson. 1989. Aquatic insects in Montezuma Well, Arizona, USA: a travertine spring mound with high alkalinity and dissolved carbon dioxide. *Great Basin Nat.* 49:85-88.
- Blinn, D.W., Wagner, V.T. & J. Norman Grim. 1986. Surface sensilla on the predaceous fresh-water leech Erpobdella montezuma: Possible importance in feeding. *Trans. Am. Microsc. Soc.* 105: 21-30.
- Boucher, P. 1980. The phytoplankton ecology of Montezuma Well, Arizona. M.Sc. Thesis. Northern Arizona University, Flagstaff, AZ.
